

## What was the experience of evacuation for the evacuees: happy or sad?

Walk around the class introducing yourself to other evacuees and find out what their experience was: positive or negative. If very positive place a tick in the +3 or +2 column. If very negative, give it -2 or -3. If it is mixed give it a low number 0. You must make the judgement!

The other thing you need to do is to record any comments on those memories which you think would sound good on the website. Off you go! Good luck!

Evacuee	+3	+2	+1	0	-1	-2	-3	Why useful for website
